

## PET'S POINT OF VIEW

ANIMAL ALCHEMY - DECEMBER 11, 2023

11 AM PST TO 4 PM PST - ONLINE

A shamanic workshop for pet people, healers and shamans.

We will dive deeply into the mystical realms that open up when animals enter their spiritual stage and get closer to the threshold of dying. You will get tools to access the inner world of your animal companions to connect and support them through this sacred time and create a meditative space with your pets.

In my work as an intuitive healer and animal communicator I've had many opportunities to connect with animals on a soul level. It never ceases to amaze me what my animal friends teach me. This has enriched my life beyond measure. You will hear about some magical encounters and learn about the vast capacity with which animals connect with us through many different dimensions.

We will engage in a meditative dialogue and do a special meditation to unlock our channels of perception. Many ancient myths and stories speak of the magic in which there are no boundaries between humans and animals. The natural world and the animals are in communion with us every day through appearances, behaviors, movements and energy. When we know what to look for we can understand the wisdom and lessons and hone a higher perception of the visible and invisible worlds.

FEE: \$125
